Tip #57

Near Misses | Safeguarding Before Disaster Strikes

**Every near miss tells a story,
listen before it repeats.**

Our Safety Companion

www.linkedin.com/groups/14358552/

What is Near Miss in Oil and Gas

- A near miss is a narrowly avoided accident or hazard.
- It reveals what could have gone wrong if coincidence hadn't intervened.
- It's a free lesson, use it before it costs lives.

HAZARD → NEAR MISS → INCIDENT

Why They **Matter** for HSE

- **Health and Safety:** Identify weak points before harm occurs,
- **Environment:** Prevent spills, leaks, and contamination.
- **Culture:** Encourage transparency and learning.

IDENTIFY → PREVENT → ENCOURAGE

Turning a Near Miss into Prevention

- Report immediately.
- Investigate and find root causes.
- Implement corrective actions.
- Track lessons learned.

**REPORT → INVESTIGATE →
CORRECT → PREVENT**

Reporting Near Misses Builds Trust

- Workers should feel safe to report.
- No blame, only learning.
- Each report strengthens your safety system.

***IF YOU SEE IT, REPORT IT,
BEFORE IT REPORTS!***

NEAR MISS

INCIDENT

Every Near Miss Is A Gift | Don't Waste It

- Each near miss is a chance to learn.
- Act now to prevent future harm.
- Let safety awareness turn "almost accident" into lasting prevention.

HAZARD

INCIDENT

**LEARN, SHARE, AND ACT, BECAUSE
EVERY NEAR MISS IS A MESSAGE!**
